INTER-KOREAN AFFAIRS

VARIOUS GROUPS AND ORGANIZATIONS OPPOSE SEOUL IPU MEETING

Japanese Organizations Against Meeting

SK121547 Pyongyang KCNA in English 1540 GMT 12 Sep 83

[Text] Tokyo, 10 Sep (KNS-KCNA)--The Japan-Korea Association for Cultural Exchange and personages in Saitama Prefecture, Japan, issued statements, the Ibaraki prefectural headquarters of the Japan Socialist Party, the Kyoto Prefectural Council of Trade Unions, the Kansai Bloc Joint Struggle Council of the General Council of Trade Unions of Japan (Sohyo) and the 38th Kansai District regular meeting of the All-Japan Harbour Workers Union adopted resolutions and many other figures published talks in denunciation of the scheme of the U.S. imperialists and the South Korean puppet clique to hold the 70th Inter-Parliamentary Conference in Seoul.

Noting that South Korea is a living hell of the 20th century where peace and democracy are totally violated and human rights harshly trampled underfoot under the dictatorship of the Chon Tu-hwan military fascist clique, the resolution adopted at the Ibaraki prefectural headquarters of the Japan Socialist Party said that it is entirely unfit for the venue of an Inter-Parliamentary Conference.

The Japan-Korea Association for Cultural Exchange said in its statement that it is opposed to the scheme to convene the Inter-Parliamentary Conference in Seoul since the intention to have the South Korean military dictatorial "regime" legalized internationally and create "two Koreas" obviously lurks behind it.

Condemning the move of the Liberal Democratic Party of Japan to attend the Seoul conference, critic Haruo Fujii stressed that the scheme to hold the conference in Seoul must be thwarted.

Foreign Youths Oppose Meeting

SK121619 Pyongyang KCNA in English 1613 GMT 12 Sep 83

[Text] Pyongyang, 12 Sep (KCNA)--The Youth and Student Congress of island countries in the Indian Ocean, the Socialist Working Youth League of Mauritius, the Malagasy Student Committee, the youth of the African National

Congress of South Africa, the Youth League of the United National Independence Party of Zambia and the National Student Union of Syria participating in the second African youth festival held recently in Libya issued a joint statement in protest against the designation of Seoul as the venue of the 70th Inter-Parliamentary Conference.

Noting that the U.S. imperialists are working desperately to hold the Inter-Parliamentary Conference in Seoul in an attempt to justify their colonial rule and realize the "two Koreas" plot by painting South Korea as an "independent state," the statement said:

We bitterly denounce the U.S. imperialists' political intrigues to use the 70th Inter-Parliamentary Conference for their "two Koreas" scheme.

We earnestly call upon all political parties and parliaments of the world which love justice and peace to boycott the 70th conference of the Inter-Parliamentary Union.

Danish Communist Party Condemns Meeting

SK070919 Pyongyang KCNA in English 0828 GMT 7 Sep 83

[Text] Pyongyang, 7 Sep (KCNA)--The Central Committee of the Communist Party of Denmark issued a statement on 2 September, stressing that it is natural for many countries to decide not to attend the Seoul conference of the Inter-Parliamentary Union.

Noting that the "decision" to hold the Inter-Parliamentary Conference in Seoul is strange and harmful, the statement said: The Inter-Parliamentary Union must not help in the recognition of the South Korean dictatorial "regime" which is creating the hotbed of war in Asia with the encouragement of the U.S. imperialists.

It is well known a fact that the Chon Tu-hwan puppet regime is running wild in the preparations for an armed invasion involving the use of more than 1,000 pieces of nuclear weapons which have already been deployed in South Korea.

Under such condition, any encouragement to the Chon Tu-hwan "regime" may entail a most serious consequence.

The venue of the conference of the Inter-Parliamentary Union must be shifted to another suitable place.

Ugandan Groups Oppose Conference

SK070440 Pyongyang KCNA in English 0358 GMT 7 Sep 83

[Text] Pyongyang, 7 Sep (KCNA)--The National Organisation of Trade Unions of Uganda, the Uganda Union of Writers and Journalists, the Teachers Association of Uganda, and the National Union of the Students of Uganda

issued a joint statement on 30 August denouncing the scheme of the U.S. imperialists and the South Korean puppet clique to hold the 70th conference of the Inter-Parliamentary Union in Seoul.

The statement says: The South Korean authorities are scheming to let Israel and South Africa, the enemies of the world people, attend the 70th Inter-Parliamentary Conference. This clearly shows that the South Korean "regime" is a faithful tool of U.S. imperialism.

In this connection we state as follows:

Firstly, we hold that the Inter-Parliamentary Conference must not be put on the political altar of the U.S. imperialists and the South Korean "regime" nor be used for their "two Koreas" plot.

Secondly, the United States must give up the scheme to have South Korea recognized internationally as a lawful "state," not a colony of the United States, by holding the international conference in South Korea.

Thirdly, we resolutely oppose the holding of the Inter-Parliamentary Conference in South Korea, a U.S. colony and military base.

Peruvian Group Opposes Seoul Conference

SK080104 Pyongyang KCNA in English 2310 GMT 7 Sep 83

[Text] Pyongyang, 7 Sep (KCNA)--The Peru-Korea Institute of Friendship and Culture and the Peruvian Committee for Supporting the Independent and Peaceful Reunification of Korea issued a joint statement on 29 August, which says:

South Korea is a complete colony which has neither political chajusong (independence) nor economic self-sustenance and is subjugated to the Yankees, the sworn enemy of mankind, and, therefore, it cannot be a venue of the Inter-Parliamentary Conference.

Noting that the 70th conference of the IPU must never be used for the plots of the U.S. imperialists, the statement says: The U.S. imperialists and the South Korean puppets scheme to divide the Korean peninsula into "two Koreas" forever by holding the conference in Seoul.

We vehemently denounce the Chon Tu-hwan military fascist clique for scheming to leave South Korea as "the frontline of U.S. strategy."

We express active support to the just stand of many countries of the world in rejecting the Seoul conference and voice militant solidarity with them.

All the countries of the world which respect sovereignty, peace and human rights and maintain a thoroughly anti-imperialist stand must never participate in the conference.

S. Korean People Denounce Seoul Scheme

SK061054 Pyongyang KCNA in English 1016 GMT 6 Sep 83

[Text] Pyongyang, 6 Sep (KCNA)--South Korean people of various strata are denouncing and resolutely opposing the scheme of the U.S. imperialists and the Chon Tu-hwan military fascist clique to hold the conference of the Inter-Parliamentary Union in Seoul.

HYOGMYONG CHONSON in its recent issue declared that this scheme is an "international political fraud" and an offspring of the "two Koreas" plot of the U.S. imperialists. It said:

The U.S. imperialists intend to create a favourable condition for a permanent [word indistinct] by inducing the Inter-Parliamentary Conference into Seoul as a stone throw aimed at "two nations" and "two states," instead of one nation and one state.

By inviting to Seoul parliamentary delegates of countries which do not recognise South Korea, under the pretext of the international conference, they intend to create the distorted impression that South Korea is not a colony, but an "independent state," and there exist two "states" on the Korean peninsula, and have this "recognized" in the international community and thereby make "two Koreas" a fait accompli.

Our people will wage all forms of struggle to check determinedly the hosting of the Inter-Parliamentary conference in Seoul, said the paper.

The members of an underground group of Konguk University in Seoul at a recent forum said that through the Seoul conference the U.S. imperialists and the Chon Tu-hwan puppet clique pursue the vicious aim to "justify" the colonial fascist rule, war policy, moves for a permanent division of the nation and all other criminal acts and mitigate their international isolation, if only a little, and evinced the determination to wage a vigorous anti-U.S., anti-fascist resistance against the Seoul conference of the IPU.

Noting that Seoul's hosting of the Inter-Parliamentary Conference is beyond doubt a ruse of the U.S. imperialists, Pak Ond-ku, a teacher in Seoul, stressed:

Our people will not remain an onlooker to the heinous intrigue of the [word indistinct] states to make "two Koreas" an established fact by taking the Inter-Parliamentary Conference as the best chance to freeze the division of the country against the will of our nation and, with it as a stepping-stone, to rush headlong to the provocation of a war against the North. It is the will of our nation to wage a decisive fight against the U.S. imperialists.

A journalist surnamed Chong said that the aim of traitor Chon Tu-hwan in scheming to hold the Inter-Parliamentary Conference in Seoul is as clear

as noonday. It is to fix the territorial division and reduce this land to a permanent tributary of the United States and thus prolong his remaining days in the serious crisis of his "power," he stated.

A leaflet scattered in many universities in Seoul and Suwon, Kyonggi Province, in the name of the Fellow Students Society for checking the convocation of the Inter-Parliamentary Conference in Seoul stressed in the "points of resolution": We determinedly reject the hosting of the Inter-Parliamentary Conference in Seoul.

Pakistani, Swiss Organizations Denounce Meeting

SK060856 Pyongyang KCNA in English 0811 GMT 6 Sep 83

[Text] Pyongyang, 6 Sep (KCNA)--The chairman of the Lahore District, Pakistan, Lawyers Association and the Geneva Committee for Supporting Korea's Reunification recently made public statements denouncing the scheme of the U.S. imperialists and the Chon Tu-hwan puppet clique to hold the 70th conference of the Inter-Parliamentary Union in Seoul.

M. Malik, chairman of the Lahore District, Pakistan, Lawyers Association, in his statement said that there is no vestige of democratic constitution in South Korea and the Chon Tu-hwan fascist clique is a puppet acting on the instructions of the U.S. imperialists who are occupying South Korea.

The statement noted: The United States had plotted for the convocation of the 70th IPU conference in Seoul in order to get international support for the South Korean rulers isolated and rejected at home and abroad for their fascist policy and realise the "two Koreas" plot through "cross recognition" and "simultaneous entry into the United Nations."

I call for the cancellation of the "decision" to hold the 70th IPU conference in Seoul and its convocation in a country where all member nations can attend it.

The Geneva Committee for Supporting Korea's Reunification in its statement said that the decision to hold the IPU conference in Seoul is a consequence of the pressure of the U.S. imperialists who are employing every conceivable means to have "two Koreas" recognized internationally. It appealed to the member nations not to send their delegations to Seoul lest they should fall a political victim to the U.S. imperialists and the South Korean puppets.

Guinea-Bissau Will Not Attend IPU

SK042250 Pyongyang KCNA in English 2215 GMT 4 Sep 83

[Text] Pyongyang, 5 Sep (KCNA)--Joao Bernardo Vieira, president of the Revolutionary Council of the Republic of Guinea-Bissau, met DPRK Ambassador to his country Sim Chae-tu on 31 August. The ambassador conveyed warm greetings of the great leader Comrade Kim Il-song to the president.

Expressing deep thanks for this, the president asked the ambassador to convey his greetings of sincerely wishing good health and a long life to the respected leader Comrade Kim Il-song and the dear leader Comrade Kim Chong-il.

Referring to the ever strengthening friendly and cooperative relations between Guinea-Bissau and Korea, the president stressed: The Guinea-Bissau people will always stand on the side of the Korean people and positively support their struggle for national reunification.

He declared that he would not send any delegation to the 70th conference of the Inter-Parliamentary Union slated in Seoul and Guinea-Bissau would never have relations with South Korea.

The conversation took place in a friendly atmosphere.

Indian Assemblymen Urge Boycott

SK030357 Pyongyang KCNA in English 0338 GMT 3 Sep 83

[Text] Pyongyang, 3 Sep (KCNA)--Members of Parliament of India from various political parties issued a joint statement on 28 August denouncing the U.S. imperialists' scheme to hold the 70th conference of the Inter-Parliamentary Union in Seoul.

The statement was signed by 14 members of Parliament including the chairman of the Democratic Party of India, the general secretary of the Indian National Congress (Party), the chief of the parliamentary group of the Communist Party of India and its members of the Lower House, the chief of the parliamentary group of the Communist Party of India (Marxist), the chief of the parliamentary group of David Munnetra Kazhagam (D.M.K.) and members of the Lower House from the Lok Dal (People's Party), the Social Democratic Party of India, the Progressive Party of India and the Socialist Revolutionary Party of India.

The statement said: Voices of protest against the designation of Seoul, South Korea, as the venue of the 70th conference of the Inter-Parliamentary Union slated for October are now ringing out from many countries.

As is known to the world, the socialist countries and a majority of the nonaligned and third world countries do not recognize South Korea as an independent state and have no relations with it. The convocation of the conference in Seoul lays a main obstacle to the participation of many countries in it.

We, members of Parliament of India, strongly oppose and denounce the designation of Seoul as the venue of the 70th Inter-Parliamentary Conference due to the U.S. imperialists' political intrigues.

We strongly demand the Inter-Parliamentary Union to change the venue of its conference to another place suitable for the participation of all the member nations.

We call upon the progressive parliamentarians of the world to boycott the Seoul conference.

Madagascar Confirms Nonattendance

SK022241 Pyongyang KCNA in English 2206 GMT 2 Sep 83

[Text] Antananarivo, 1 Sep (KCNA)--Malagasy Prime Minister Desire Rakotoarijaona met Korean Ambassador to his country Kim In-ho on 1 September. The prime minister expressed satisfaction with the further strengthening and development of friendly and cooperative relations between Korea and Madagascar.

I unconditionally support the proposals for national reunification put forward by the great President Kim Il-song, he noted, and stressed: The Malagasy Government and people have opposed from the beginning the convocation of the 70th conference of the Inter-Parliamentary Union in Seoul and already expressed the stand that they will not send a delegation to Seoul.

Madagascar opposes the convocation of the 70th Inter-Parliamentary Conference in Seoul and expresses once again the stand that it will send no delegation to the conference.

The talk proceeded in a friendly atmosphere.

FRG's Green Party Demands Change of Venue

SK020459 Pyongyang KCNA in English 0357 GMT 2 Sep 83

[Text] Pyongyang, 2 Sep (KCNA)--Klaus Timpe, member of the leadership of the Green Party of the Federal Republic of Germany, issued a statement in Pyongyang on 29 August on behalf of the party in denunciation of the scheme of the U.S. imperialists and the South Korean puppet clique to hold the 70th conference of the Inter-Parliamentary Union in Seoul.

The statement said: The Green Party of the Federal Republic of Germany vehemently denounces the 70th conference of the Inter-Parliamentary Union to be held in South Korea this fall.

We consider that to hold the Inter-Parliamentary Conference in Seoul, South Korea, is a challenge to the peaceloving people and progressive, democratic forces of Asia.

Our Green Party demands change of the venue of the 70th conference to another place.

At the same time, we protest against the government of the Federal Republic of Germany supporting the "Seoul conference." The Bonn government continually assists the South Korean "Government" politically and materially and permits the South Korean intelligence organs to legally conduct their activities in West Germany.

But the Democratic People's Republic of Korea, a nonaligned state, is not allowed to conduct any diplomatic activities in the Federal Republic of Germany.

Our party demands the federal government to immediately renounce its foreign policy following the global military aggressive moves of the Reagan administration.

Our Green Party calling for peace movement hopes that Europe will not meet a nuclear holocaust like Hiroshima but turn into a peaceloving and independent zone free from nuclear weapons.

We also call upon all the peaceloving and democratic forces to make responsible efforts so that the 70th Inter-Parliamentary Conference may not be convened in South Korea in conformity with the idea of the Inter-Parliamentary Union.

DAILY HITS 'CHON CLIQUE' FOR SUPPRESSING HOME-VISITING KOREANS

SK031518 Pyongyang KCNA in English 1504 GMT 3 Sep 83

[Text] Pyongyang, 3 Sep (KCNA)--NODONG SINMUN today carries an article titled "What Does the Suppression of Overseas Compatriots 'Visiting Their Home Villages' Show?" flailing the Chon Tu-hwan clique's hypocritical trumpeting about "movement for finding out separated families" through their subsidized media these days.

Noting that this movement suddenly launched by the South Korean puppets of late is aimed at covering up their crimes in increasing the misfortunes and sufferings of dispersed families and winning favour at home and abroad under the "humanitarian" veil, the paper says:

The Chon Tu-hwan clique are utterly indifferent to the misfortunes and sufferings of these separated families and relatives.

The puppets murder overseas compatriots who visit their parents, brothers and relatives in South Korea after a separation of scores of years or arrest and penalize them on charges of "spying."

Recently, the notorious puppet Security Planning Board faked up three spy cases including the case of "a spy disguised as member of the 'ROK' Residents Association in Japan" to arrest overseas compatriots who came to South Korea for a visit to their home villages. Earlier, the Chon Tu-hwan clique cooked up scores of false cases such as "case of U.S.- and Japan-resident Korean spies," "spy case connected with the General Association of Korean Residents in Japan" and they arrested many overseas compatriots visiting their native villages on charges of involvement in these cases, put them to all manner of tortures and sentenced them to death, life imprisonment and other heavy penalties.

The Chon Tu-hwan clique also bar overseas compatriots in every way from visiting their parents, brothers and relatives in the DPRK and suppress overseas compatriots and attempt to put them on their political altar, taking issue with their meeting families and relatives scores of years after their separation.

Telling the overseas compatriots that they "must not visit the North in whatever form or for whatever purpose," the Chon Tu-hwan clique openly threaten that "those who visit the North are Reds" and "if one visited the North, he would not be allowed in South Korea."

When overseas compatriots show their intention to visit the DPRK to meet their dear families and relatives, the puppets pursue and crack down upon them.

The Chon Tu-hwan clique are the very one standing in the way of the reunion of the separated families and a group of traitors to the nation who are trying to completely cut off the veins of the nation by creating "two Koreas."

By wearing the "humanitarian" veil through the "movement for finding out the separated families" the Chon Tu-hwan clique intend to refurbish their image, hold the Inter-Parliamentary Conference without a hitch and thus realise the "two Koreas" plot and "power security."

If the question of separated families is to be completely solved in our country, the U.S. imperialist aggression troops, its main obstacle, must be withdrawn from South Korea and the Chon Tu-hwan clique be ousted from "power."

'MINDAN' KOREANS CONDEMN JAPAN-ROK MINISTERS' MEETING

SK031213 Pyongyang KCNA in English 1001 GMT 3 Sep 83

[Text] Pyongyang, 3 Sep (KCNA)--The "Liaison Council of Korean Youth and Students in Japan for Supporting the Struggle for Democracy in South Korea" and the "Association for Defence of Human Rights of South Korean Women," organisations of Koreans under the influence of the "ROK Residents Association in Japan" ("Mindan"), issued a statement in joint name on 31 August in denunciation of the holding of the South Korea-Japan "regular ministerial council meeting."

It noted that the aim of the "regular ministerial council meeting" was to raise the military cooperation between South Korea and Japan to a military alliance and hasten the completion of a tripartite military alliance of the United States, Japan and South Korea.

It said that "cooperation in industrial technology" which was discussed at the "meeting" would bring about increase of the military power of the South Korean puppet clique and the advance of Japanese enterprises into South Korea and "cultural exchange" "agreed upon" there are aimed to cover up the undisguised reinvasion of the Japanese Government with the veil of "economic cooperation" and "cultural interchange."

Pointing out that despite international denunciation the Chon Tu-hwan puppet clique is now trying hard to hold the Inter-Parliamentary Conference in Seoul, the statement said that the South Korea-Japan "regular ministerial council meeting" is an encouragement to this scheme.

S. KOREA STEPS UP ESPIONAGE AMONG OVERSEAS COMPATRIOTS

SK061527 Pyongyang KCNA in English 1507 GMT 6 Sep 83

[Text] Pyongyang, 6 Sep (KCNA)--A recent issue of ASIAN-AMERICAN NEWS, a paper of Korean residents published in the United States, exposed the moves of the Chon Tu-hwan puppet clique to intensify espionage activities among Korean residents in the United States.

Pointing out that the South Korean puppet embassy in the United States launched a "fund-raising campaign" to collect one million dollars till 1986 under the name of the "Scholarship Fund Committee," the paper said: There is a strong suspicion among Korean residents in the United States that the "committee" is one more espionage organ for helping the secret activities of the officials of the "Security Planning Board" in the "embassy."

Explaining why the "committee" is regarded as an espionage organ of the puppets, the paper said: Firstly, there is an organisation called the "Scholarship Association" in the United States. Yet the "minister" is zealously going down among the compatriots under the pretext of organising the fund. It is doubted if this is not a scheme to trump up another secret organisation of Chon Tu-hwan.

Secondly, one million dollars is not a small amount. There is an unending doubt whether this money will be used purely as a scholarship fund or for the purpose of other special activities.

Recalling that in 1978 the scholarship activities sponsored by the "embassy" ended in smoke, some people are afraid that the money will be collected as expenses for special activities of officials of the "Security Planning Board" in the "embassy."

The paper stressed that in view of the precedent and the present moves, the "fund-raising campaign of the Scholarship Fund Committee" is a crafty trick of the Chon Tu-hwan puppet clique to strengthen espionage activities in the United States.

KCNA REPORTS ON 11 SEPTEMBER S. KOREAN ARMY DEFECTOR

SK150529 Pyongyang KCNA in English 0400 GMT 15 Sep 83

[Text] Pyongyang, 15 Sep (KCNA)--Yang Ki-sok, private first class of the South Korean puppet army, came over to the northern half of the republic on 11 September, breaking away from the disgraceful life in the puppet army.

A young man of 20, he was a cartridge man of the firearms squad, 3rd platoon, 11th company, 3rd battalion, 55th regiment, 22nd division, of the South Korean puppet army. He hailed from Chungnim-dong, central district of Seoul. He has his mother, brother and sister at home.

Bereaved of his father at the age of 6, he hardly finished high school and engaged himself in backbreaking labour at the "Pusan Trading Company, Ltd." in Seoul till January 1983 when he was pressganged into the puppet army.

As to the motive of his coming over to the North, he said: South Korea, a colony of U.S. imperialism, is a corrupt society where poor people like us cannot live a worthy life. Through life I bitterly hated Chon Tu-hwan, the dictator, military hooligan and traitor, and South Korean society and tried to seek a genuine life.

In the frontline area I came to know through the radio broadcasting of the North that in the North under the leadership of the great General Kim Il-song there is neither exploitation nor oppression, but all people are living a happy life full of hope. Celebrations of the National Day held in Pyongyang further confirmed my determination to come over to the North.

I was deeply impressed when I heard the speech of the great general at a banquet celebrating the National Day indicating a bright vista of the North for development and the road to be followed by the nation for reunification.

I could not repress an impulse to be embraced in the bosom of the great general as soon as possible. At last, availing myself of an opportunity of being on duty guard on the front, I came over to the North.

WFTU INTENSIFIES SOLIDARITY FOR REUNIFICATION

SK061045 Pyongyang KCNA in English 1010 GMT 6 Sep 83

[Text] Pyongyang, 6 Sep (KCNA)--The World Federation of Trade Unions recently published an appeal on the occasion of Day of International Solidarity with Korea calling for an intensified solidarity movement supporting the struggle of the Korean people and workers for the peaceful reunification of the country.

Noting that tension is growing on the Korean peninsula owing to the nuclear war provocation maneuvers of the United States and the South Korean authorities, the appeal stresses that this threatens peace in Asia and the rest of the world.

It says: The struggle of the Korean people and workers for the country's reunification is a link in the chain of the struggle of the world progressive people for peace and security.

The Seoul military "regime" maintained by the U.S. forces suppresses the struggle of the South Korean people and workers for democratic freedom and rights.

The WFTU demands an immediate stop to the fascist suppression of the people in South Korea.

The scheme to frame up a U.S.-Japan-South Korea tripartite military alliance must be checked and frustrated and the new war provocation maneuvers in South Korea be stopped.

The U.S. administration should withdraw its troops from South Korea, together with all the nuclear weapons, and give up the "two Koreas" plot.

PAPERS HIT S. KOREAN PROPAGANDA--Pyongyang, 7 Sep (KCNA)--A recent issue of ASIAN-AMERICAN NEWS, a paper of Korean residents published in the United States, carried an article exposing the false propaganda conducted abroad by the South Korean military fascist clique. The South Korean military fascist clique, the paper said, secretly dispatched to Japan its "special agents" under the guise of "correspondents" and made them send false reports to South Korea in an attempt to conduct "psychological operation" for diverting elsewhere the attention of the people. Pointing out that TONGIL ILBO is playing a particular role in the false propaganda of the puppets, the paper continued: False reports from the camouflaged correspondents including those from TONGIL ILBO revealed that they were all fabrications by announcing an equivocal origin, saying that they are from "informed sources." Intelligence agents of the fascist clique are working among the South Korean correspondents in Japan and other countries and reptile publications of overseas Koreans. PUBLIC CRACKDOWN STRENGTHENED--Pyongyang, 7 Sep (KCNA)--The South Korean puppet police headquarters on 3 September called "an emergency meeting of police chiefs" and ordered them to intensify repression to prevent "obstructive maneuvers of seditious force," raising an outcry over this, according to a report. Some time earlier, the puppet prime minister had cried for "a more strict watch." This was part of the frantic repressive acts started by the Chon Tu-hwan puppet clique with a fuss over "maintenance of public peace" and "establishment of order" in their madcap campaign to hold a conference of the Inter-Parliamentary Union in Seoul at any cost. By getting more frenzied in the new war provocation moves and repression on the threshold of the convocation of the Inter-Parliamentary Conference in Seoul, the fascist clique are attempting to put down the strong anti-U.S., anti-puppet sentiments of the people. HOUSING SHORTAGE IN SOUTH--Pyongyang, 6 Sep (KCNA)--Forty-two percent of the South Korean families live without their houses, according to a report. Of this, the housing shortage rate of the workers' families is as high as 54.9 percent. About 3.2 percent of the homeless workers' families live in the open, having no capacity to pay the rent. An average of 1.39 families live in one rented house in South Korea, says the report. [Text] [SK061149 Pyongyang KCNA in English 1055 GMT 6 Sep 83]

PAPER SAYS SOUTH'S ECONOMY DOOMED--Pyongyang, 6 Sep (KCNA)--A recent issue of MINCHOK SIBO, a Mindan-ling overseas Koreans' newspaper, ridiculed the Chon Tu-hwan military fascist clique who, driven into an economic bankruptcy, are compelled to readjust and diminish on an overall scale the so-called "economic and social development plan" and yet claim that it is a step necessary for "stability." The overall amendment of the "plan," it stressed, means that their economic policy has reached its limit. The paper says: The basic factor of the overall amendment of the "economic and social development plan" is the structural contradiction of the export-oriented economy dependent on foreign loans and it is impossible for the Chon Tu-hwan "regime" to tide over this economic crisis without the intention to improve this contradiction fundamentally. The posture of the authorities to pull the wool over the eyes of the people, advertising the overall amendment of the "plan" as one for "stabilisation of growth," is nothing but an evasion of their responsibility for the failure of the economic policy. The economic policy of the Chon Tu-hwan "regime" resorting to petty tricks will not ward off bankruptcy. [Text] [SK060859 Pyongyang KCNA in English 0807 GMT 6 Sep 83]

SOUTH'S 'AMNESTY' FARCE DENOUNCED--Moscow, 1 Sep (KCNA)--The Soviet paper IZVESTIA 30 August in a short commentary said that one more political drama called "amnesty" to some "criminals" is being staged by the authorities in South Korea. It said: According to a view of observers, "amnesty" is granted only to some of those who had participated in the anti-"government" action but are no longer a threat to the "power." This drama is intended to give the mass communication means of capitalist countries an opportunity to loudly advertise the "liberalisation" of the South Korean "power" and the "firmness" of the position of its bosses. The paper noted that in the last few months alone a large number of former opposition figures who had fought to overthrow the Chon Tu-hwan dictatorship and put an end to the U.S. occupation of the South of the Korean Peninsula have been arrested. OPPOSITION PARTIES SEEK REVISION OF ELECTION LAW

Draft Amendments Due

SK160223 Seoul THE KOREA HERALD in English 16 Sep 83 p 1

[Text] Opposition political parties are seeking to revise the National Assembly Election Law, a move which will be a subject of bipartisan controversy.

Political sources said yesterday that the Democratic Korea Party (DKP) and the Korea National Party (KNP) consider presenting their respective draft amendments to the law during the plenary National Assembly sitting opening next week.

To help materialize the plan, the opposition DKP will first hold a party leaders' meeting today to organize a special panel empowered to deal with the amendment.

The two opposition parties had demanded revision of the National Assembly Law, the Basic Press Law and implementation of the local autonomy system, but not the National Assembly Election Law.

The new move by the opposition camp is believed to have been stimulated by the general elections scheduled for early 1985.

Representative Im Chong-ki, floor leader of the DKP, insisted that there are many clauses in the election law which run counter to the "principle of equity" for the ruling and opposition parties.

He pointed out that election candidates are not given copies of voters' rosters under the current law.

Another "demerit" of the law he cited is that election management officials do not include those recommended by political parties.

Im said his party is interested in readjusting the quota for the National Assembly members "elected" on the proportional ticket.

At present, two-thirds of the quorum of 276 lawmakers are elected through general elections and one-third (92 persons) through the proportional representation system, or in proportion to the votes each political party scores in general elections.

However, the law authorizes the party which becomes the majority party as a result of general elections to appoint two-thirds of the 92 "proportional" lawmakers.

Im also emphasized that the number of the joint election speech rallies be increased and the individual campaign speech session be restored.

The KNP, the third largest party, wants to revise the law in a way to elect three lawmakers from each district, one more than the current number of two.

Meanwhile, it was learned that the government and the ruling party are considering increasing the number of electoral districts across the country which now number 92.

Sources said the electoral districts may be further divided to create about eight new districts in consideration of the increased population.

Parties Resume Talks

SK150211 Seoul THE KOREA HERALD in English 15 Sep 83 p 1

[Text] Representatives of major political parties will meet Monday to resume discussions on the possibility of amending the National Assembly Law.

Floor leaders of the Democratic Justice Party, Democratic Korea Party and Korea National Party agreed yesterday to convene the subcommittee charged with seeking improvements in legislative steering Monday, a day before the opening of the regular three-month house sitting.

The law is expected to be a hot issue, during the forthcoming parliamentary session. The leading opposition DKP has long demanded a substantial revision of the law.

Some officeholders of the opposition party threatened Tuesday to boycott the entire floor session unless their demand is met.

Six days of panel meetings, called into session last June, were cancelled as opposition lawmakers boycotted them over the ruling camp's failure to commit itself to revising the National Assembly Law.

A timetable, agreed upon by the floor leaders, provides that the 275-seat parliament will open next Tuesday, but it will be virtually in recess until October 16 because of Chusuk (full-moon festival) and the 70th Inter-Parliamentary Conference scheduled for October 2-13 in Seoul. Chusuk, a Korean version of American Thanksgiving, falls on September 21.

From October 26 through October 28, legislators who made trips overseas this summer will report on their "diplomatic activities."

The legislature will be recessed September 29-October 16 due to the IPU meeting.

On October 17, Prime Minister Kim Sang-hyop is scheduled to brief members of the National Affairs about the government's budget proposal for fiscal 1984 and other state affairs. Leaders of the three major parties will speak to the parliament on October 18.

Lawmakers will start interpellating the premier and cabinet officials October 19-25.

The schedule after October 26 has yet to be set.

In a related development, the Agriculture-Fisheries Committee will meet Friday to hear a government report on the anticipated good rice harvest for this year.

ACHIEVEMENTS OF NATIONAL ASSEMBLY REVIEWED

SK200053 Seoul THE KOREA HERALD in English 20 Sep 83 p 4

[Editorial: "New Assembly Session"]

[Text] The 119th regular session of the National Assembly opens today after a long recess. The 90-day session will be largely devoted to deliberations on the annual budget bill for 1984 estimated at 10,400 billion won. The action will be preceded by approval of the account settlement of the government's financial performance in 1982.

A host of other bills numbering more than 140 are also pending before the autumn session, including 36 items carried over from the previous session. The forthcoming general election in 1985 imposes an added burden on the National Assembly in the form of several political issues over the moves to revise the National Assembly Law and National Assembly Election Law and the lifting of political activity ban on some former politicians.

This year the unicameral legislature will see the major event of the Inter-Parliamentary Union conference hosted in Seoul in early October through mid-October. It is a significant international gathering and its success will be a matter of concern not only for the National Assembly but also for the entire nation.

Our parliament has shown signs of increased efficiency and maturity in the last few years. A sweeping change in the nation's political culture and the imperative of pragmatism arising from the need of the time prompted such reform in the manner of our parliamentary performance.

In the past decades, extended haranguing and obstruction catering to the reckless taste of part of the electorate and the interest of some oppositionist lawmakers had been detrimental to smooth and effective conduct of our legislative business. That kind of waste is almost gone now.

It is very fortunate that most members of the National Assembly have turned professional in the good sense of the term. Though we have imported and learned from the experience of advanced democracies in the representative form of government, there is much room for our own improvement and creative development of the system in a productive way.

One remarkable achievement of the current National Assembly lies in its attainment of "national representation" rather than limited local representation. There are today fewer examples of legislators working for narrow interests of their precincts, the discredited practice of pork-barreling.

These and other issues of political nature may divide the opinion of the parliament and touch off confrontation among political parties. However, an emerging tradition of dialogue and accommodation among them in handling the house business will help it pull through with much substantive legislative accomplishments.

The voting public do not want to see their legislative chamber remain inactive or glossing over the vital issues of the day. At the same time, they will not tolerate lawmakers engrossed in senseless and wasteful spellbinding and political maneuvers to advance their personal popularity and electoral gains.

The fact that Seoul has been named the venue for the IPU meeting is reflective of the worldwide appreciation of the rising stature of the Korean National Assembly. It ought to prove equal to the occasion in all respects. Business-like management of the legislative proceedings following a fruitful IPU conference will add to the prestige and credibility of the people in their representative organ as the main instrument of democracy in this country.

NATIONAL ASSEMBLY TO CONVENE 90-DAY SESSION

SK190256 Seoul YONHAP in English 0236 GMT 19 Sep 83

[Text] Seoul, 19 Sep (YONHAP)--The Korean National Assembly will convene a 90-day regular session Tuesday to deliberate on the 1984 national budget and to act on 140 other bills.

During the session, the ruling and opposition parties are expected to wrangle over so-called political bills including an opposition-proposed National Assembly Law revision that is believed to be significant for the 1985 general elections.

An opening ceremony will be held Tuesday morning after which the assembly will be adjourned until September 25.

The House plenary session will be convened on September 26 to receive reports on parliamentary diplomacy this year and on preparations for the general assembly of the Inter-Parliamentary Union (IPU) to be held in Seoul October 2-13.

The House will go into recess again from September 29 to October 16 because of the IPU conference.

The one-house Korean assembly will go into full swing on October 17 when it hears government reports on the 1984 national budget totaling 10.4 trillion won (13.3 billion U.S. dollars).

On October 18, the plenary session will hear debate put forward by the heads of the country's three major political parties and will interpellate the executive branch on political, diplomatic and security affairs, economic issues and social affairs from October 19-25.

In preparation for the regular session, the country's rival parties are busy ironing out their own strategies in party caucuses.

The ruling Democratic Justice Party (DJP) will try to vitalize the function of the National Assembly through dialogues, while the major opposition Democratic Korea Party (DKP) is expected to reinforce political offensives against the ruling camp to achieve political restoration. The DKP will concentrate especially on the passage of political bills including revisions of the National Assembly Law.

It also appears that the DKP-proposed amendment to the parliamentary elections law will generate fresh debate between rival parties.

FINANCE MINISTER URGES U.S. PARTICIPATION IN BUSINESS

SK200258 Seoul YONHAP in English 0228 GMT 20 Sep 83

[Text] Seoul, 20 Sep (YONHAP)--South Korean Finance Minister Kang Kyong-sik told leading U.S. businessmen in San Francisco Monday that Korea hopes American financial organizations and entrepreneurs will participate actively in the Korean financial market, a Finance Ministry official said Tuesday.

In a business briefing at the Bohemian Club in the west coast city, Kang said Korean financial markets need an influx of modern financial techniques and greater capital, the official said.

With its vast domestic market of 40 million people, a plentiful labor force, high standards in education, and the development of social overhead capital and parts industries, Korea is second to no Asian nation in appeal to foreign investors, Kang told his audience.

By expanding import liberalization and renovating its tariff system, Korea has gone far in eliminating elements that have stood in the way of brisk foreign investment, the official quoted Kang as saying.

Kang expected the country's money supply to increase less than 15 percent by the end of 1983 steadying wages and interest rates, the official said.

Leading a 14-member Korean delegation which will attend the annual meetings of the International Monetary Fund (IMF) and the International Bank of Reconstruction and Development (IBRD) opening September 25 in Washington, D.C., Kang said he anticipated Korea's economic growth rate will increase to more than eight percent this year. In 1982, the figure stood at 5.3 percent.

Before attending the meetings in Washington, Kang will deliver similar speeches in Houston, Chicago and New York, the official added.

IMPORTS RISE AFTER LIBERALIZATION MEASURES

SK190809 Seoul YONHAP in English 0657 GMT 19 Sep 83

[Text] Seoul, 19 Sep (YONHAP)--Riding on the domestic economic recovery, South Korean imports of luxury items have risen sharply recently, business sources here said Monday.

The July 1 adoption of import liberalization measures has accounted, in large part for the upturn. The country's import liberalization rate has been raised from last year's 76.6 percent to 80.4 percent.

The rate represents that percentage of goods imported out of all items that possibly could be imported.

Imports of such non-essential consumer products as beef, dried grapes, tile, glassware, carpet, footwear, silver, gold, furniture, toys and sporting goods between January and July this year amounted to nearly 1.5 billion U.S. dollars, up 60.7 percent over the same period in 1982, the sources said.

Reflecting brisk activity in domestic construction, tile imports registered the highest growth rate, 168.3 percent, followed by silver (148.8 percent), footwear (108.5 percent), furniture (79.8 percent), toys and sporting goods (60.7 percent), glassware (58.1 percent), beef (41.3 percent), carpet (27.6 percent), dried grapes (18.9 percent) and gold (3.8 percent).

The largest amount of cash (more than 87.3 million dollars) went for the importation of beef, followed by carpet (18 million dollars) and toys and leisure products (10.6 million dollars).

While gold imports used in manufacturing export items dropped 59 percent, gold imported for domestic use increased 639 percent.

Rice imports during the period totaled 30.1 million dollars, down 58 percent from last year's level, according to the sources.

PLANS TO REVISE LAW ON FOREIGN INVESTMENT DISCUSSED

SK150251 Seoul YONHAP in English 0229 GMT 15 Sep 83

[Text] Seoul, 15 Sep (YONHAP)--In an effort to attract more foreign investment, South Korea plans to revise its current laws regulating the inflow of foreign capital to open more areas to investment, sources at the Finance Ministry said Thursday.

A key feature of the plan is to introduce the "negative system" under which all lines of Korean industry will be open to foreign investment except certain sectors restricted by the government, the sources said.

Among those which will be declared ineligible for foreign investment are government-run companies, and other businesses barred from foreign investment by an upcoming presidential decree.

Under the so-called "positive" system, 521 lines of industry have so far been eligible for foreign investment.

Foreigners whose total investment constitutes 50 percent or less of a company's total equity and invest 3 million dollars or less will be "immediately" authorized to do so by the Korean Government, according to the ministry plan.

The plan also allows all foreign investors to withdraw their money invest in Korean firms whenever they wish. The current law allows foreign businessmen--after two years of first doing business here--to withdraw 20 percent of their principal investment every year.

The plan also calls for easing the stringent investment requirements for Koreans residing abroad. Koreans overseas currently are allowed to make a direct investment here only if they have lived abroad for more than 10 years.

In principle, the plan demands that foreign investors not enjoy tax incentives.

In order to introduce sophisticated technology from abroad, the present approval system will be changed to a "reporting" system.

The ministry will also simplify procedures for screening public and commercial loans.

The Finance Ministry will bring an amendment to the existing foreign investment laws to the National Assembly when it convenes a regular session next week, sources said.

RICE PRODUCTION--Seoul, 10 Sep (YONHAP)--South Korea's rice production this year is expected to exceed the targeted 5.8 million tons if weather conditions remain favorable until harvest, sources at the Agriculture-Fisheries Ministry said Saturday. At present, rice production this year is estimated to grow 5 to 10 percent over last year's 5.2 million tons. If this year's rice harvests surpass the target, 1983 will be a record-breaking year for South Korean rice production, the sources said. If the country harvests a bumper rice crop this year as expected, it will not need to import foreign rice next year, the official added. The country imported 937 million U.S. dollars worth of foreign grain last year, 3.9 percent of Korea's total imports. [Text] [SK100231 Seoul YONHAP in English 0220 GMT 10 Sep 83]

TROPICAL DISEASES--Tropical diseases such as malaria, Cutaneous Leishmaniasis and Urinary Scintostomiasis are likely to spread in this country largely through returned overseas workers carrying germs, it was learned yesterday. According to a report made jointly by medical teams of Yonsei University and the Hanyang University, 74.5 percent of malaria cases occurring during past 10 years in Korea turned out to have been introduced from foreign countries through overseas workers and travelers. Thirty-eight malaria patients out of 51 cases were workers employed in African and Arab countries including Gabon and Saudi Arabia. The investigators conducted studies on tropical disease cases in 29 general hospitals in Seoul from 1970 to 1982. They said in the report that 27 of 35 malaria patients hospitalized since 1977 were first infected with the disease in foreign countries. They also have found five cases suffering from Urinary Scintostomiasis during the same period, whose germs penetrate the body through the skin. Prof. Min Tok-yong of Yonsei University said if the survey was conducted nationwide, larger numbers of patients would be expected. "There is a great possibility that larvae carrying the diseases land in this country," he said. [Text] [SK170049 Seoul THE KOREA TIMES in English 17 Sep 83 p 8]

KAL PLANE INCIDENT IN EDUCATION --The Ministry of Education yesterday instructed education boards throughout the nation to use the incident of the Soviet downing of a KAL airliner as material for anti-Communist education. The ministry also told education boards to help the children of the victims of the downed airliner overcome difficulties caused by the death of their parents. In a meeting of school inspectors in charge of student guidance, the ministry said schools should educate students on the significance of the oncoming international meetings like ASTA and IPU, which are to be held in Seoul, during the next two months. The ministry also asked schools to try to prevent accidents during school excursions and athletic meetings. [Text] [SK170021 Seoul THE KOREA HERALD in English 17 Sep 83 p 8]

PRC-TRAINED DOCTOR--Seoul, 16 Sep (YONHAP)--A South Korean who had acquired a doctor's license in China was given the right to apply for next year's state examination authorizing doctors to practice medicine. So far, doctor licenses issued by governments with which Seoul has no diplomatic ties have been denied in Korea. The Health-Social Affairs Ministry recently notified Pak Kong-sul, 63, a Seoul resident, of the ministry's decision to recognize his license and

qualified him to apply for the state examination. The ministry's decision was in accordance with a revised provision of a law adopted in July 1982. Pak, a native of Mokpo, South Cholla Province, went to China during the Japanese rule of Korea (1910-45) and served as a doctor for 40 years in Shenyang until he returned to Korea through arrangements made by the Korean National Red Cross several years ago. ROK MAY DELAY REQUEST FOR UN DEBATE ON KAL INCIDENT

Will Consult on Resolution

SK210412 Seoul THE KOREA HERALD in English 21 Sep 83 p 1

[Text] The government has decided to withhold making a final decision on whether to have the KAL incident brought up as an additional agenda item for deliberation at the U.N. General Assembly until the International Civil Aviation Organization (ICAO) makes an interim report on its investigation into the incident October 16.

A diplomatic source said yesterday the government will continue to make efforts to have friendly nations condemn the Soviet use of armed forces against a civil airliner when they make keynote speeches at the U.N. General Assembly.

However, he said, the government will consult with the friendly nations on Soviet responses to the ICAO investigation before deciding whether it will have an antiSoviet resolution introduced to the General Assembly.

The ICAO Governing Council, in an emergency session last week, adopted a resolution calling for an independent probe and making an interim report on the result of the investigation by October 16.

The government will keep an eye on the Soviet responses to an investigation by the Montreal-based U.N. special agency, he said.

He said the government will see to it that the Soviet Union be condemned for its violent action at the ICAO and U.N. General Assemblies, convening today in Montreal and New York, respectively.

The government plans to take cautious steps in censuring the Soviet Union at the United Nations in the belief that the Communist state will try to make a "cold war issue" out of the Korean airliner incident.

The diplomatic source pointed out a possibility of Third World countries making "lukewarm" responses to a Western initiated resolution against the Soviet Union in an effort to distance themselves from both the East and the West.

The source said Korea and its friends decided to be more careful in handling the issue in the international community after the U.N. Security Council resolution was vetoed by the Soviet Union last week.

FKTU Sends Thanks

SK200625 Seoul YONHAP in English 0539 GMT 20 Sep 83

[Text] Seoul, Sep 20 (YONHAP)--The Federation of Korean Trade Unions (FKTU) Tuesday cabled messages to the International Confederation of Free Trade Unions and the International Federation of Transportation Unions to thank the organizations for their cooperation in taking prompt retaliatory measures against the Soviet downing of a Korean commercial airliner September 1.

In the messages, the FKTU asked for the two union organizations' continued support until Korea's demand for the free and safe passage of civil aircraft on international routes and full compensations for the loss of 269 human lives is met by the Soviet Union.

The FKTU sent messages to the two organizations September 3, accusing the Soviets of attacking an unarmed civilian airliner.

In prompt response, the organization instructed member trade unions all over the world to take retaliatory measures such as refusing to refuel Soviet aircraft and ships or banning the flight of Soviet airliners.

Press Group Seeks Support

SK151213 Seoul YONHAP in English 1207 GMT 15 Sep 83

[Text] Seoul, 15 Sep (YONHAP)--The Korean Newspapers Association and the International Press Institute (IPI) Korean National Committee recently sent press organizations in more than 50 countries, affiliated with the IPI and the Federal Internationals des Editeurs de Journaux et Publications (FIEJ), cables condemning the Soviet shooting down September 1 of a Korean commercial jetliner.

The cable called upon all members of the two international press organizations to cooperate in demanding from the Soviet Union a true account of the incident, an official apology and a pledge not to commit such as "inhuman act" in the future.

ROK Preparing Resolution

SK140644 Seoul YONHAP in English 0615 GMT 14 Sep 83

[Text] Seoul, 14 Sep (YONHAP)--South Korea plans to propose a resolution condemning the September 1 Soviet downing of a South Korean commercial jet at a special meeting of the International Civil Aviation Organization which will convene in Montreal Thursday, sources at the Foreign Ministry said Wednesday.

Seoul is consulting its friends and allies in this regard, the sources said.

The move comes in the wake of the United Nations Security Council's failure Monday to pass a Western-backed resolution deploring the Soviet action. The draft resolution had gained the nine votes required for the passage of a resolution under normal circumstances but was vetoed by the Soviet Union, which is one of the council's five permanent members.

In the draft resolution to be submitted to the ICAO council, South Korea and its supporters will demand the ICAO conduct an investigation of the tragic incident, which claimed 269 lives, and request the Soviet Union to make reparations for losses incurred by its downing of the Korean Air Lines Boeing 747.

The draft resolution also will propose a ban on the use of force against civilian aircraft under any circumstance and recommend that the U.N. General Assembly, which opens in New York September 20, debate the Korean airliner incident.

INCREASE IN EXPORTS TO NORTH AMERICA, MIDEAST

SK140225 Seoul YONHAP in English 0140 GMT 14 Sep 83

[Text] Seoul, 14 Sep (YONHAP)--South Korea's exports to North America and the Middle East increased substantially this year while those to other areas decreased, the Korean Traders Association (KTA) reported Wednesday.

As of the end of July, exports to the United States and Canada amounted to 4.86 billion U.S. dollars, up 33.6 percent from the same period last year, the KTA report said.

The arrival of export letters of credit (l/c), a leading indicator of future exports, from North America also rose 26.9 percent to 2,868 million dollars.

Brisk exports of ships, electronics products and footwear led the increase in exports to North America, the KTA said.

Exports to the Middle East rose 26.5 percent to 2.06 billion dollars during the same period because of increases in the exportation of textiles. L/C arrivals, however, slightly dropped 1.1 percent to 1.306 billion dollars.

Meanwhile, the January-July exports to Asia decreased 10.3 percent from last year as those to Japan, the biggest export market in Asia, dropped 10.6 percent.

Exports to Europe declined 5.1 percent while the volume of goods exported to Central and South America decreased 20.1 percent last year, exports to Oceania dipped 15.1 percent and those to Africa plummeted 25.4 percent.

The KTA attributed disproportionate exports to various regions to strengthened protectionism in Europe against certain Korean exports, including ships and footwear, and tightened import regulations on Korean textiles in most countries.

NODONG SINMUN 'ESSAY' ON PROSPERITY OF '80'S

SK031234 Pyongyang KCNA in English 1037 GMT 3 Sep 83

[Text] Pyongyang, 3 Sep (KCNA)--NODONG SINMUN 2 September carried a political essay headlined "Prosperity in the 80s."

The political essay says: The 80's in which our people are successfully translating into practice the noble idea of modelling the whole of society on the chuche idea under the leadership of the glorious party, holding the great leader Comrade Kim Il-song in high esteem at the van of the revolution, is a period of most shining change in our history.

Reviewing in detail new victories won one after another in the struggle for attaining the grand 10 long-range objectives of the socialist economic construction in the 1980's set forth at the Sixth Congress of the Workers' Party of Korea, the essay notes that our 80's is a period of prosperity which holds the highest peak in the history of prosperity we have achieved.

It continues: We are convinced that our 80's is a period of great national prosperity which will convert our country into a powerful economic state of chuche, a developed country corresponding to its high prestige and dignity and its glory and proud name, with a great economic power commensurate to the most superior socio-political system established in our country.

Noting that prosperity in the 80's is a logical result of its principle and law, it says:

By the principle of prosperity we mean the principle of establishing chuche and relying on our own efforts and by the law of prosperity we mean the law of laying solid economic foundations standing on their own feet under whatever conditions.

The road of chuche of solving all problems on one's own responsibility and with one's own efforts and the road of self-sustenance of laying a solid foundation not affected by any economic depression--hewing out this road with the great chuche idea and our own economic theories, we have developed the economy and technique in our own way and laid solid foundations of independent economy one by one as they are today with much blood and sweat, looking into the distant future.

Referring to the great successes which we have made on the road of chuche, the road of self-sustenance under the wise guidance of the great leader who worked out a grand program of national prosperity and guided the work for establishing chuche in our revolution and our economic life, the essay points to its validity and vitality.

Saying that our 80's is a period in which all things we have done with great efforts for scores of years are coming into full bloom and bearing fine fruit, it stresses: We now see proud victory thanks to our past just struggle and sing of the most firm and sure prosperity of the 80's thanks to the shining victory today.

The essay says that our 80's is a period of great prosperity which is flowering thanks to the greatness of our leader and our party.

It dwells on the unexcelled clairvoyance and bold strategic plan of the great leader Comrade Kim Il-song who designed the 80's to be a period of unprecedented, great prosperity and on his great leadership in wisely directing the struggle of the 80's as the commander of the general march.

It also points to the brilliant leadership of the glorious party which skillfully organizes and directs the march of the 80's, carrying into practice the far-reaching plan of the great leader.

It says that the glorious party has built up steel-like ranks under the banner of modelling the whole party and society on the chuche idea, put up new militant slogans, slogans of great advance, and has skillfully guided the great ranks with inexhaustible passion and vigor and tested organizing ability, thus working the miracles of the 80's.

The essay says in conclusion: The period which brings about unprecedented, great prosperity shining with the great leadership of the leader, the great genius of revolution and construction and veteran general, who pioneered the road of revolution and performed immortal feats and accumulated rich experiences through the revolutionary activities for a protracted period spanning over half a century and with the great guidance of our glorious party brilliantly realizing the guidance of the leader--this is precisely the 80's of Korea.

PRAVDA 13 September under the headline "Speech of Comrade Kim Il-song" carried the gist of the speech. It said: General Secretary of the Central Committee of the Workers' Party of Korea and President of the Democratic People's Republic of Korea Kim Il-song referred to tasks for reunifying the country on the basis of North-South confederation.

He said that national reunification, the cherished desire of the nation, has not yet been achieved owing to the nation-splitting moves of the U.S. imperialists who are occupying South Korea.

The U.S. imperialists have turned South Korea into their colony and aggressive military base and resorted to persistent intrigues to perpetuate the division of Korea.

For national reunification it is necessary to put an end to the U.S. imperialists' military occupation of South Korea and ease the tensions created due to the war provocation moves of the U.S. imperialists and their stooges.

TASS reported his speech on 12 September.

DAILY MARKS ANNIVERSARY OF KIM IL-SONG-LED BATTLE

SK061602 Pyongyang KCNA in English 1523 GMT 6 Sep 83

[Text] Pyongyang, 6 Sep (KCNA)--Papers here today dedicate articles to the 50th anniversary of the victory in the historic battle of attack on the Dungning county seat organized and commanded by the great leader Comrade Kim Il-song in the period of the anti-Japanese revolutionary struggle.

It was an important problem in more thoroughly isolating the Japanese imperialist aggressors, the common enemy, and powerfully accelerating the anti-Japanese revolutionary cause to form and consolidate a joint front with the Chinese anti-Japanese units in the early period of the anti-Japanese armed struggle.

In those days, the great leader Comrade Kim Il-song victoriously led the battle of attack on the Dungning county seat, the enemy's point of military importance near the Soviet-Manchuria border, by organizing the first large-scale joint operation with anti-Japanese units on 6-7 September 1933.

In this battle the guerrillas and Chinese anti-Japanese units won a shining victory, killing or wounding hundreds of Japanese imperialist aggression army and puppet Mafchukuo army soldiers and capturing a large quantity of military materials from them.

Referring to the significance of the battle, NODONG SINMUN in an article titled "Historic Event Which Consolidated and Developed Anti-Japanese Joint Front," says:

The significance of the victory of the battle of attack on the Dungning county seat lies above all in that it dealt a heavy blow at the vicious national alienation moves of the Japanese imperialist aggressors who were trying to undermine the unity between the Korean and Chinese peoples.

The whole course of the battle more fully disclosed to the whole world the Japanese imperialists' evil propaganda and national alienation moves, the reckless and false nature and reactionary nature of the rash "leftist" actions of the factionalists.

Thus, the soldiers of the anti-Japanese units came to realize more deeply that it was the heinous Japanese imperialist aggressors who tried to take Jiandao and the whole of Manchuria and enslave the Chinese people and the Korean communists and people were true friends and brothers who were fighting together against the Japanese imperialists, the common enemy, for the restoration of the country.

They also clearly realized that the factionalists who were taking rash "leftist" actions, wearing the mask of communists, were the wicked enemy trying to destroy the anti-Japanese joint front.

The significance of the victory of the battle also lies in that it widely demonstrated once again to the whole world the mightiness of the anti-Japanese joint front.

News of the battle which was adorned with a shining victory rapidly spread among broad segments of people and the anti-Japanese units and gave them inexhaustible strength and courage.

Especially, the officers and men of the anti-Japanese units were more firmly convinced that if the Korean and Chinese peoples fought with concerted efforts, they could smash the Japanese imperialist aggression army, the common enemy, and attain the aim of anti-Japanese national salvation.

In the joint struggle waged against the Japanese and U.S. imperialists from many years ago and in the practical struggle for hewing out the road of the socialist revolution and socialist construction, the two peoples came to be firmly convinced that their destinies are in inseparable relationship like that between the teeth and lips, the article stresses.

DAILY STRESSES EDUCATION IN REVOLUTIONARY TRAITS

SK021532 Pyongyang KCNA in English 1520 GMT 2 Sep 83

[Text] Pyongyang, 2 Sep (KCNA)--NODONG SINMUN 1 September carried an article titled "The Education in Revolutionary Traditions Is an Important Problem for Succeeding Lineage of Revolution," which says:

Comrade Kim Chong-il, member of the Presidium of the Political Bureau and secretary of the Central Committee of the Workers' Party of Korea, in his many immortal classic works and documents gave comprehensive answers to the essence and main content of the revolutionary traditions of our party and the questions of principle arising in carrying forward and developing the revolutionary traditions.

His document published in 1963 is of very great significance here. It expounds the position and importance of education in the revolutionary traditions in carrying forward and developing them.

In what position one places education in the revolutionary traditions and how one pushes it forward is a question of principle in upholding the revolutionary traditions and succeeding the lineage of revolution.

Only when the party members and the working people are firmly armed with the revolutionary traditions can they have a clear knowledge of the historical roots of our party and revolution. And they can unswervingly inherit and develop the revolutionary traditions in any adversity and struggle with all devotion for the accomplishment of the cause of socialism and communism.

Only when education in the revolutionary traditions is strengthened among the younger generation can the revolutionary traditions be firmly upheld and defended, inherited and developed and the lineage of revolution be stoutly succeeded.

The historic experiences of the communist movement show us that when one neglects and weakens education in the revolutionary traditions among the party members, working people and the rising generation, this brings irretrievable consequences to the development of revolution.

The document also comprehensively elucidates the problems arising in firmly arming the party members and working people with the revolutionary traditions.

What is important above all here is to bring home to them the wisdom of the leadership of the respected leader Comrade Kim Il-song, the document reflects the tested leadership of the respected leader who founded the immortal chuche idea and has brilliantly embodied it and the imperishable revolutionary feats performed by him for the country and the people.

Through the document all the party members and working people have been able to deeply grasp the pre-eminent traits of leadership of the respected leader Comrade Kim Il-song and his immortal revolutionary feats and cherish deeper in their hearts the honour and pride of a people making revolution, holding the leader in high esteem, says the article.

KCNA INTRODUCES DPRK AGRICULTURAL ACHIEVEMENTS

SK080059 Pyongyang KCNA in English 1546 GMT 7 Sep 83

[Text] Pyongyang, 7 Sep (KCNA)--The food and agricultural problem has been successfully solved in the Democratic People's Republic of Korea. The great leader Comrade Kim Il-song put forward the policy of developing agriculture in a diverse way with main emphasis on attaining self-sufficiency in food and wisely organized and directed the struggle for its implementation.

The government of the DPRK directed primary attention to vigorously carrying on nature-remaking projects and increasing state assistance to the countryside for the further consolidation of the material and technical foundations of the rural economy.

As 80 percent of our territory is covered by mountains, our country's area of cultivated land is 2 million hectares (1.6 million hectares are paddy and non-paddy fields) including orchards and mulberry fields. Therefore, it was raised as a most important task to increase the grain producing area, improve seeds and vigorously carry on the technical revolution in the countryside for increased agricultural production.

Korea set irrigation, electrification, mechanisation and chemicalisation as the basic tasks of the rural technical revolution and started from irrigation to complete it long ago.

Before the country's liberation the area of irrigated fields was nearly 100,000 hectares and the paddy fields were mostly unirrigated.

In Korea an all-country, an all-people movement was vigorously waged to carry out irrigation projects, afforestation and water conservancy and the drainage of standing water. As a result, all the rivers and streams were readjusted, more than 1,500 reservoirs, 23,700 pumping stations, 1,300 drainage stations were built and facilities were constructed at more than 124,800 places to use underground water.

Irrigation of paddy fields was thus completed and irrigation of non-paddy fields finished in the main and water-jetting system widely introduced in vegetable fields and fields under double crop cultivation.

Electrification has long been realised and electricity found its way in all farm houses and all stationary work has been electrified. The annual consumption of electricity in the countryside has reached 2,200 million kwh.

Big successes have been achieved in the mechanisation and chemicalisation of agriculture.

Large-scale tractor plants, automobile works, tractor parts factories, trailing farm machine plants and other factories serving the mechanisation of agriculture have been built in different parts of the country to produce a great quantity of modern farm machines and farm implements every year.

The number of tractors per 100 hectares of arable land has already reached 7 in the plain area and 6 in the intermediary and mountainous areas and vigorous endeavours are now being made to raise the number to 10-12 in the near future. The number of trucks per 100 hectares reached 1.5.

Paddy and non-paddy fields have been standardized, with the result that the mechanisation level of farm work has reached 100 percent in paddy and non-paddy field tilling, 95 percent in rice transplanting, 70 percent in autumn harvesting and 100 percent in grain thrashing and transport.

The application of chemical fertilizers per hectare of paddy and non-paddy fields has reached 1.6 tons and 97 percent of the entire paddy fields are weeded by chemical methods. Weeding of maize fields is almost done by weed killers.

A large number of agro-technicians have been trained. Today there are an average of 57 technicians and specialists on every cooperative farm.

The state is giving active support of financial, cultural and technical aid to the countryside.

The state has completely abolished all taxes including the agricultural tax in kind. It is building productive establishments, dwelling houses and cultural and welfare establishments on its own expenses for the cooperative farms.

In the period from 1964 to 1980, 19.7 percent of the total amount of state investments in capital construction went to rural construction. In this period the state built more than 957,000 dwelling houses in the countryside.

Thanks to the further consolidation of the material and technical foundations of the rural economy and the thorough implementation of the requirements of the great chuche methods of farming, the grain output rapidly increased--from 3,803,000 tons in 1960 to 5 million tons in 1970, 9 million tons in 1980 and 9.5 million tons in 1982.

The vegetable production grew 2.5 times in the period from 1960 to 1980. And the fruit output grew over 4.7 times from 1960 to 1979 and the meat and egg output grew 11.83 times and 91 times respectively in 1980 as against 1949.

Today Korea's agriculture has firmly turned into an agriculture with independent and diverse departmental structures capable of fully meeting the demand for food and raw materials of industry.

KIM CHONG-IL'S ROLE IN CONTROL OF EQUIPMENT PRAISED

SK021525 Pyongyang KCNA in English 1517 GMT 2 Sep 83

[Text] Pyongyang, 2 Sep (KCNA)--More than 770,000 machines were recorded as model machines and 158 industrial establishments won the title of the factory of model machine No. 26 during the last year in Korea.

This is a success registered in the course of the "movement of creating loyal model machines for following the example of lathe No. 26."

"Lathe No. 26" is a machine associated with the immortal historic records of the dear leader Comrade Kim Chong-il.

The dear leader guided the Pyongyang textile machine plant on the spot for over 20 days in April 1961 when socialist construction was entering a new stage of development in Korea.

He set an example in the control of equipment at "lathe No. 26" belonging to the tools shop of the plant and kindled the flame of the "movement of creating model machines" to spread it to the whole plant.

Now a big turn is being effected in the control of equipment through this powerful movement at the industrial establishments all over the country.

In this course 158 industrial establishments including the Pyongyang textile machine plant and the Sinuiju general machine plant have become factories of model machine No. 26, and their number is on the steady growth.

SK021019 Pyongyang KCNA in English 1008 GMT 2 Sep 83

[Text] Pyongyang, 2 Sep (KCNA)--The light industry of the Democratic People's Republic of Korea meets with its own products the demands of the working people for all kinds of consumer goods from cloths to goods of cultural use.

The production of consumer goods grew 2.7 times in the 70's and its successes have been further expanded in the last 3 years.

In order to develop the light industry the great leader Comrade Kim Il-song advanced the unique policy of simultaneously developing the large-scale centrally controlled industry and medium- and small-scale local industry and has wisely guided the struggle for its implementation. As a result, an independent and modern light industry was created in a short period.

In the light industry of Korea local industry holds an important place. Several thousands in number, local industrial factories account for more than 50 percent of the nation's output of mass consumption goods.

A big success has been achieved in the development of the textile industry. Textile mills built in all parts of the country turn out a large quantity of cloths, scores of meters per capita annually.

Food, shoes and daily necessities industries have also made rapid development.

Various kinds of foodstuffs are produced at the cornstarch factory and flour processing mill both with a rated capacity of 100,000 tons in Pyongyang, cornstarch factories, flour processing mills, and meat, fish and fruit processing factories in all provinces and local cities and local foodstuff processing factories in every country. The foodstuff production grew 2.4 times in the period of the 6-year plan. In recent years its production is on the steady rise.

The foodstuff industry greatly helps improve the dietary life of the working people in keeping with the socialist way of life and free women from heavy burden of household chores.

A large quantity of shoes of good quality are produced at leather shoes factories including the Pyongyang shoes factory with an annual production capacity of millions of pairs of shoes and synthetic leather shoes factories built in Sunchon, Hungnam, Chongjin and other places and other shoes factories.

People are provided with several pairs of shoes with the change of seasons.

More than 100,000 kinds of daily necessities of good quality are turned out at the TV set factory with an annual production capacity of hundreds of thousands of TV sets, watch factory and large-size daily necessities factories and local industrial factories in all parts of the country.

DPRK TEXTILE INDUSTRY MAKES PROGRESS

SK031524 Pyongyang KCNA in English 1513 GMT 3 Sep 83

[Text] Pyongyang, 3 Sep (KCNA)--The textile industry has made a rapid progress in the DPRK. The total annual textile production capacity went beyond 600 million meters in the 6-year plan period (1971-1976).

The per capita output of fabrics was no more than 14 centimeters in 1944. But it jumped to 9 meters in 1956 and 25 meters in 1965 and now has reached the level of tens of meters.

The textile industry of Korea founded after liberation under the wise guidance of the great leader Comrade Kim Il-song has developed into an independent industry with a diverse structure and solid raw material bases to satisfy the increasing demand of the people for fabrics with its products.

The textile mills in Pyongyang, Kusong, Kaesong, Sariwon and Hamhung and large and minor ones in all parts of the country produce great quantities of vinalon, cotton, wool, silk, knitwear and other kinds of fabrics suited to each season and tastes of the people.

The Pyongyang textile combine produces in a matter of 4 days as much textiles as were turned out in a whole year across the country under the Japanese imperialist rule.

In recent years the material and technical foundations have been consolidated to increase fiber production. In the 6-year plan period the production capacity of the February 8 vinalon complex reached 50,000 tons and the capacities of the chemical fiber mills in Chongjin and Sinuiju rose to several dozen thousand tons. Factories of new chemical fibers such as movilon and orlon were built and their production capacities expanded.

The sericulture of Korea with a long history supplies sufficient cocoons to all silk mills.

The 7th plenary meeting of the 6th Central Committee of the Workers' Party of Korea in June last set a high goal of creating in 2 or 3 years a fiber

production capacity for a preschedule attainment of the 1,500 million meter target of textiles, one of the 10 long-range objectives of socialist economic construction in the 1980's.

It advanced a task to build a 100,000 ton-capacity vinalon factory in Sunchon District.

When the 1,500 million ton-target of textiles is attained, 80 meters of textiles will go to each head of the population.

KCNA REPORTS DEVELOPMENT OF MACHINE INDUSTRY

SK311550 Pyongyang KCNA in English 1525 GMT 31 Aug 83

[Text] Pyongyang, 31 Aug (KCNA)--Today the machine-building industry of the Democratic People's Republic of Korea produces not only all kinds of large-sized and precision machines but also complete sets of plants for different domains of the national economy. The nation's self-supply rate of machinery has reached 98 percent.

In the pre-liberation days the proportion of the machine-building industry in the total industrial output value was no more than 1.6 percent.

The great leader Comrade Kim Il-song put forward long ago a policy of building an independent and modern engineering industry and has wisely led the struggle for its implementation.

In 1951 when the fatherland liberation war was at its height he set forth the policy of building machine plants by our own efforts and personally chose the site of the Huichon machine tools factory, thereby opening a new stage of development of the engineering industry.

A great many modern machine plants have made their appearance all over the country, among them the Kumsong tractor plant, the Huichon machine tools factory, the Yongsong machine complex, the Tae'an general heavy machine works, the Sungni general automobile works, the Nakwon machine plant and the Kim Chong-tae electric locomotive factory.

In 1971 the industrial output of the engineering industry rose 569 times the 1946 figure. About 30,000 machine tools were produced a year in the early 1970's. The machine-building industry contributed to the completion of more than 13,000 productive construction objects in the last 5 years.

Korea turned out during the period the 6,000-ton press, 200,000-kva transformer, 5,000-meter test drill, 4,200-hp electric locomotive, 100-ton truck, 10-cubic meter excavator, 20-meter lathe, 300-hp bulldozer and 20,000-ton cargoship, and so on.

The share of the machine-building industry in the country's industrial output increased from 5.1 percent in 1946 to 31.4 percent in 1967 and then to 33.7 percent in 1977.

At present the Korean engineering industry has all branches from machine tool industry to electric machine industry, electronic and automation industry, precision machine industry and large-sized machine industry. And its departmental structure is well harmonized and equipped with new techniques.

The machine-building industry has entered a stage of full-scale automation under the wise guidance of the dear leader Comrade Kim Chong-il. He put forward a wise policy of realizing a comprehensive automation of production processes in different fields of the national economy and is energetically directing the work for its implementation.

Automatic assembly lines have already been applied to many plants of machine-building industry and industrial television and remote control have been introduced.

Now Korea is hastening the introduction of pressing and stamp forging, the revolution in welding and in the production of insulate materials and automation to develop the machine-building industry. Robots will be introduced gradually.

The DPRK exports to many countries trucks, tractors, excavators, cranes, diesel engines, machine tools, electric machines, compressors, refrigerators, and many other machines.

It exports nearly all kinds of machine tools including large machine VV tools, special machine tools, automatic and semi-automatic machine tools and single-purpose machine tools. The high-speed all-purpose lathe "Kusong No 3" was awarded gold medal at an international fair.

COAL INDUSTRY DEVELOPMENT IN S. PYONGAN

SK060904 Pyongyang KCNA in English 0815 GMT 6 Sep 83

[Text] Pyongyang, 6 Sep (KCNA)--South Pyongan Province holds an important share in the coal production of Korea. The province has large-scale coal mining complexes. Equipped with modern excavating facilities and technique and hundreds of medium- and small-scale coal mines in the Anjo, Sonchon, Tokchon and Kaechon areas.

The province's coal putput jumped 19.6 times over the last 35 years under the banner of the republic.

The great leader Comrade Kim Il-song personally gave on-the-spot guidance to the coal mines in Anjo and Tokchon districts and guided consultative meetings of the domains related to coal industry in the province several times, clearly indicating directions and ways for building promising coal mines with rich deposits in the province into mighty modern coal production bases.

The dear leader Comrade Kim Chong-il took measures to give an active support of the whole party to the work of consoli-ating the material and technical foundations of the coal mines in the province and reconstructing and expanding them on modern lines and has constantly shown warm care for the life of the coal miners.

During the last 5 years, the coal mines in the province have been equipped with tunnelling combines, cylinder-style coal cutters, oil-pressure mechanized stope support, belt conveyers and thousands of units of other modern excavating and transporting equipment to powerfully push ahead with the comprehensive mechanisation of the coal-cutting and carriage in the pits, and the pits have been concretised.

With the introduction of modern machines and equipment into production, coal output has shown a sharp rise in recent years.

The Anjo District coal mining complex, one of the large coal production bases of the country, excavates 30,000 or 40,000 tons on a monthly average, 100,000 tons at maximum, at each cutting face.

The annual coal output at the complex leaped 100 times as against the pre-liberation figure.

The annual coal output at the Tokchon and Sonchon district coal mining complexes is more than 11 times the annual output of South Pyongan Province shortly after liberation. This amount of the province's output is turned out in 4 days at the Kaechon District coal mines.

KIM CHONG-IL GUIDANCE ON METRO PRAISED

SK250421 Pyongyang KCNA in English 0409 GMT 25 Sep 83

[Text] Pyongyang, September 24 (KCNA)--Ten years have passed since the Pyongyang Metro opened to traffic in September 1973.

In this period the Metro has made a great contribution to the traffic of citizens of the capital.

The length of the Metro lines has greatly increased in the past 10 years and people can travel to all directions and places of the city by the Metro.

The excellent building of the Pyongyang Metro is entirely thanks to the wise and tireless energetic guidance of the dear leader Comrade Kim Chong-il who translates into practice the far-reaching construction plan of the great leader Comrade Kim Il-song.

The dear leader put forward a unique policy of making the Pyongyang Metro a grand monumental structure by building it most splendidly in the world, in our own way to give all conveniences to the people and in a cultural and prospective way, and energetically guided the project to complete it in a short period.

In particular, he set forth a policy of making the architectural decorations of the Metro artistic and guided this work many a time on the spot.

Saying that the name of every station should be meaningful, he personally named it and taught that the Metro should be adorned with sculptures and mural paintings suited to the thematic idea of the name of the station and illuminations designed particularly well.

As a result, every station was built with its specific features at a significant place including the Kaeson station at a place where the great leader Comrade Kim Il-song made a historic speech after his triumphant return home.

All the stations are wonderfully decorated with different sculptures and mural paintings praising the greatness and wise guidance of the respected leader Comrade Kim Il-song and his glorious and brilliant revolutionary history.

The Metro stations are well lighted in a peculiar way.

Diverse lighting, both direct and indirect, fluorescent lamps and chandeliers add to the grandeur and magnificence of the Metro.

In this way the Pyongyang Metro has been built excellently not only as a traffic means of citizens but also as a place of mass culture and education to arm people with the revolutionary history and traditions of our party.

A large number of foreign friends including party and state leaders from more than 70 countries have visited the Metro and expressed deep admiration.

Saying that the Pyongyang Metro is the best underground palace in the world, T. B. Mukherjee, president of the Asian Regional Institute of the Chuche Idea, stressed that the dear leader Comrade Kim Chong-il who guided the construction of such a grand and magnificent Metro is a genius on art and construction.

CONSTRUCTION INDUSTRY HAS MADE REMARKABLE PROGRESS

SK061547 Pyongyang KCNA in English 1513 GMT 6 Sep 83

[Text] Pyongyang, 6 Sep (KCNA)--An amazing change has taken place in the domain of construction in Korea over the past 35 years under the banner of the DPRK.

The proud successes in construction are eloquently proved by magnificent and beautiful cities including Pyongyang, the capital of revolution, powerful combined metallurgical bases, large machine production bases, big power bases, chemical industry bases, marine transport bases, modern fishery bases and other grand monumental edifices which have mushroomed in different parts of the country.

It is thanks to the wise guidance of the great leader Comrade Kim Il-song that Korea which was razed to the ground by the U.S. imperialists during the fatherland liberation war has been built at such a high tempo.

The great leader who had worked out a far-sighted plan to build a new country during the anti-Japanese revolution put forward a chuche-oriented policy of construction and has since wisely directed the struggle for its implementation.

The dear leader Comrade Kim Chong-il clearly indicated the orientation and ways of construction by embodying the great leader's chuche-oriented idea of construction.

He organized bold and big operations and energetically guided them so that an unprecedentedly high speed was registered and numerous grand monumental edifices were built through the vigorous speed campaign in the 1970's.

During the period 1971 to August 1975 1,055 modern factories and many workshops were built in the industrial domain. In the agricultural domain 117 reservoirs and 8,850 pumping stations made their appearance in the 6-year plan period (1971-1976).

In the first 5 years of the present 7-year plan, more than 13,000 productive construction objects have been completed and production has become diverse and independent.

In this period new construction methods have been applied to create a high construction speed outdistancing "Pyongyang speed," "Vinalon speed" and "Kangson speed," a new chollima speed, which were recorded in the history of construction of Korea.

The Kim Il-song Stadium whose construction had been regarded to take several years at least was built in a matter of 4 months and the Pyongyang No 1 Department Store in a short period of 1 year, the scale of which is 25 times that of the Pyongyang Hwasin Department Store which was built in more than 7 years at the time of Japanese imperialist rule.

New construction speeds were also created in erecting grand monumental edifices including the Tower of Chuche Idea, the Arch of Triumph and the Grand People's Study House national in style and socialist in content.

The form of structures has been diversified and architecture reached a high level in Korea.

Such structures as the Mansudae Art Theater, the Pyongyang Metro, the Changgwang Street and the Chongryu Restaurant show the acme of Korean architecture. They are grandiose and magnificent in size and equipped with harmonized diverse art decorations.

The level of industrialization and mechanization of construction has risen beyond comparison.

In Korea which has built up its own powerful construction forces and laid solid building-materials bases, a large number of construction objects such as the Moran automation apparatus factory and the Ponghwa lock gate were built and commissioned this year. A miracle without precedent in the world history of construction was wrought in the building of the third dressing plant of the Komdok general mining enterprise and the vigorous speed campaign is sweeping the construction sites of the Nampo lock gate and the Taechon power station.

PAPER CITES NEW PLANT AS CHUCHE SUCCESS

SK061038 Pyongyang KCNA in English 1001 GMT 6 Sep 83

[Text] Pyongyang, 6 Sep (KCNA)--NODONG SINMUN today prints an editorial titled "Miracle Created in Komdok--This Is Speed of the 80s."

The great leader Com-ade Kim Il-song recently visited Komdok and highly praised the construction of a large-scale ore dressing plant in a brief period of 1 year as a wonderful miracle unprecedented in the world history of construction, saying that this is precisely the "speed of the 80s," the editorial notes, and says:

The amazing speed of construction created in Komdok is precious fruit produced in the course of waging the drive for the creation of the "speed of the 80s" launched by our party last year.

The construction of the grand dressing plant on the height of Komdok forming a sea of machines is a great demonstration of the economic power of chuche Korea, the might of a powerful industrial state. The manufacture of the whole set of numerous installations at the large dressing plant by ourselves in a few months and the construction of the plant by ourselves on our own design testify to the justness of our party's line of building an independent economy and prove that the potentials of our industry are immeasurably great.

With the construction of the third dressing plant a breach has been made in the battle for hitting the 1.5 million ton goal of non-ferrous metals and the independence and chuche character of our national economy have been further strengthened. This opens up a prospect for attaining the 10 long range objectives as a whole and provides a reliable guarantee for drastically improving the people's living.

The example of the "speed of the 80s" created in Komdok imbues our people with the firm conviction that they will certainly be able to realise the grand programme of economic construction set forth at the Sixth Congress of the party.

The proud success achieved in the construction of the third dressing plant in Komdok is a precious fruition of the deep care and wise guidance of the

great leader Comrade Kim Il-song. He initiated the construction of the new dressing plant and chose its site and directed deep care and guidance to the whole course of the project.

The successful construction of the third dressing plant is a striking demonstration of the militant might of our party.

Our party attached great importance to the Komdok mine and saw to it that it took the lead in carrying out the three revolutions, and took all the necessary steps so that the construction of the new dressing plant could be pushed ahead at full steam. Our party formed a powerful construction force and provided all conditions including the production of equipment, with the result that a wonderful construction speed has been created.

BRIEFS

DEVELOPMENT OF AGRICULTURE--Pyongyang, September 7 (KCNA)--Agriculture has rapidly developed in the Democratic People's Republic of Korea. Irrigation has already been completed in Korea. As a result, all the rivers and streams were readjusted, more than 1,500 reservoirs, 23,700 pumping stations, 1,300 drainage stations were built and facilities were constructed at more than 124,000 places to use underground water. Electrification was realised before long. All the stationary work is done by electricity. Great successes have been made in mechanisation and chemicalisation of agriculture. The number of tractors per 100 hectares of arable land has already reached 7 in the plain area and 6 in the intermediary and mountainous areas and vigorous endeavours are now being made to raise the number to 10-12 in the near future. The number of trucks per 100 hectares reached 1.5. The application of chemical fertilizers per hectare has reached 1.6 tons and 97 percent of the entire paddy fields are weeded by chemical methods. Weeding of maize fields is almost done by weed killers. Today there are an average of 57 technicians and specialists on every cooperative farm. The grain output was 9 million tons in 1980 and 9.5 million tons in 1982 in Korea. Today Korea's agriculture has firmly turned into an agriculture with independent and diverse departmental structures capable of fully meeting the demand for food and raw materials of industry. KCNA NOTES SUCCESS IN INTELLECTUALIZING SOCIETY

SK301046 Pyongyang KCNA in English 1031 GMT 30 Aug 83

[Text] Pyongyang, 30 Aug (KCNA)--The intellectualization of the whole society is being dynamically pushed forward in the Democratic People's Republic of Korea. The great leader Comrade Kim Il-song at the historic Sixth Congress of the Workers' Party of Korea reclarified the grand program of the intellectualization of the whole society and set forth concrete tasks and methods for its realization.

The WPK's policy of the intellectualization of the whole society is a great program of communist educational and cultural construction to raise the level of culture and knowledge of all the members of society to that of the college graduate and thus eliminate the difference between mental and physical labour left over by the old society and realize the complete equality of the working people.

The historic process of intellectualizing the whole society has today become a living reality in all parts of our country, in town and country and fishing villages.

There are more than 170 universities and colleges and upwards of 10,000 schools of different levels appointed with modern educational facilities in the northern half of the DPRK which had only a few colleges and one or two middle schools in each province, but not a single university before liberation. In our country where an advanced educational system has been established, this opened up a broad avenue for all the members of the rising generation and working people to study to their heart's content.

The policy of the intellectualization of the whole society is associated with deep love of the fatherly leader Comrade Kim Il-song who is concerned to bring up our people as independent and creative men with a high level of cultural and technical knowledge.

Proceeding from the principle of the chuche idea that man is the master of everything and decides everything, he has consistently maintained the policy of giving priority to education in all work.

Regarding education and training of cadres as an important problem decisive of the rise or fall of the country, he showed deep care for education after liberation though the country's economic conditions were very difficult and the burden of education was heavy.

In the period of the Japanese imperialist colonial rule 80 percent of our people were illiterate and most of young people had no opportunity to study at colleges or technical specialized schools. As a result, after liberation there were only a few scores of technicians who studied at colleges.

Nearly 40 years from the time when the great leader roused the entire people to the campaign against illiteracy has seen a rapid development in national education.

Korea where the universal compulsory primary education was introduced already in 1956 saw the introduction of the universal compulsory secondary education and the universal compulsory 9-year technical education and fully introduced the universal compulsory 11-year education from September 1975, and is now making preparations to go over to compulsory higher education.

In Korea millions of adult illiterates came to read and write in a few years after liberation and the cultural and technical level of the working people was raised to that of the middle school graduate.

A large army of 1,200,000 intellectuals has been reared.

More than 5 million are now studying at schools of all levels from primary school to university and a great number of workers and farmers receive higher education, embraced in the study-while-working educational system.

The educational work of Korea is reliably backed by the universal free education system.

Students of colleges and universities receive scholarships from the state. The expenses for education hold a very large proportion in our state budget and they increase systematically year after year.

The achievements and popular policies in education are a reliable guarantee for the intellectualisation of the whole society.

NODONG SINMUN ON PARTY POLICY TO DEVELOP CULTURE LEGACIES

SK280035 Pyongyang KCNA in English 2355 GMT 27 Sep 83

[Text] Pyongyang, September 27 (KCNA)--NODONG SINMUN September 26 carried an article titled "To Inherit and Develop Legacies of National Culture Is a Consistent Policy of Our Party," which reads in part:

It is a consistent policy of our party to inherit and develop what is progressive and popular among the past cultural legacies in keeping with the contemporary aesthetic tastes of people in our era and properly combine the inherent national style of our culture with the socialist content, preserving the former.

Our chuche-inspired literature and art which is now in its heyday under the wise leadership of our party has attained peculiar artistic traits along with a high ideological plane suited to the requirements of the times and the desires of the people. Its secret is the thorough implementation of our party's policy of correctly carrying forward and developing the heritages of national culture to properly combine the inherent national style with the socialist content of culture, preserving the former.

As taught by the great leader Comrade Kim Il-song, the national style in literature and art is one suited to the sentiments and tastes of Koreans; it reflects the peculiar mental characteristics, national sentiments and excellent talent of our nation.

The purpose of our inheritance of the legacies of national culture is to create and develop socialist literature and art in compliance with the sentiments of the popular masses in our era. Therefore, we should discard the reactionary ones hostile to the masses of the people and accept only the progressive and popular ones suited to their emotions and tastes.

Even progressive and popular ones contain vulgar and unscientific elements which fail to meet the ideological and aesthetic demands of the popular masses in our era for the limited nature of the age when they were created and of their authors with regard to their world outlook. That is why we should inherit and develop them from a critical point of view in keeping with the realities today.

To meet this demand, our party saw to it that the principle of party spirit and working-class spirit and the principle of historicism were firmly adhered to in carrying forward the cultural legacies.

If we neglected either the principle of party spirit and working-class spirit or the principle of historicism in inheriting the legacies of national culture, we would commit the mistakes of restorationism or national nihilism after all, bringing grave consequences to the ideological work and cultural construction.

In its attitude towards the historically formed heritages of national culture and national traditions in cultural construction our party strictly guarded against two tendencies--restorationism and national nihilism.

The great leader, basing himself on a profound scientific analysis of the prevailing situation and the law of the development of literature and art, defined imperialists' cultural infiltration and restorationism as the main target of the struggle for building a socialist culture and has led the people to thoroughly overcome any trifling manifestation of it in good time.

Under the wise leadership of the glorious party centre a grand project has been undertaken in our country for correctly inheriting and developing the legacies of national culture in the field of cultural construction. It has already borne fine fruits.

PRC PAPER WRITES ON KOREAN FILM WEEK

SK211016 Pyongyang KCNA in English 1009 GMT 21 Sep 83

[Text] Beijing, September 19 (KCNA)--The Chinese "Guangming Daily" recently carried an article under the title "Song of Friendship, Song of Hero" and the subtitle "Hail Korean Film Week."

The paper says:

The five movies to be screened in China during the Korean film week--"New Legend on the River Piyu," "Blood-Cemented Korea-China Friendship," "Wolmi Island," "Many Years Went By" and "We Meet Again on Mt. Myohyang" are successful works.

China and Korea adjoin each other with rivers in between and China-Korea friendship is everlasting.

Depicting the revolutionary friendship and militant unity of the Chinese and Korean peoples has been historically one of the important contents of the films made in Korea.

The feature film "New Legend on the River Piyu" proves successful because it is not confined to giving a common account of a heroic story, but depicts through it the feelings of militant friendship between the Chinese and Korean peoples and armies who shared life and death, and weal and woe, in the days of the furious war.

In conclusion, the paper stresses:

The film conveys friendship.

The film week will add fresh lustre to the friendship and unity of the Chinese and Korean peoples.

The South Korean dictatorial "regime" can not exist even a single day without the backing of the U.S. imperialists.

We present at the meeting reiterate our full support to the proposal for the founding of the Democratic Confederal Republic of Koryo advanced by Your Excellency President Kim Il-song and the proposal for concluding a peace agreement with the United States put forward by your country.

Papers Hail Conference

SK240451 Pyongyang KCNA in English 0432 GMT 24 Sep 83

[Text] Pyongyang, September 24 (KCNA)--Dailies here today print editorials warmly greeting the opening in Pyongyang today of the first conference of ministers of education and culture of the non-aligned and other developing countries.

An editorial of NODONG SINMUN says that the first one of its kind in the history of the Non-Aligned Movement, the conference discussing the problems of educational and cultural development carries weighty significance.

Noting that the conference is convened at a time when the non-aligned and developing countries are faced with the pressing task to rapidly develop education and culture and successfully build a new life, the editorial says:

The conference will provide the non-aligned and developing countries with a good opportunity in exchanging their successes and experiences in the fields of education and culture and be an important occasion for them in developing education and culture on the principle of individual and collective self-reliance and strengthening South-South cooperation and friendship and solidarity between them in these fields. The conference will also greatly contribute to the struggle of the peoples of the non-aligned and developing countries and the world's peaceloving people for smashing the imperialists' ideological and cultural infiltration and offensive, building national education and national culture, developing and strengthening the Non-Aligned Movement and realizing world peace and their cause of independence against imperialism.

Education and culture are one of the fundamental problems related to the independent development and prosperity of the country and the future destiny of the nation, the editorial notes, and says:

For the non-aligned and developing countries which are building a new life, freed from the colonial subjugation of imperialism, it poses a more urgent problem to rapidly develop education and culture.

For these countries to develop national education and build national culture is a serious political problem of hastening the building of a new life to consolidate political independence and achieve the independent development of the country and guarantee the prosperity of the nation.

Today the non-aligned and developing countries are confronted with the important task to build a genuine education and culture conducive to the prosperity of the country and nation, while consolidating the successes they have already achieved.

For the sound development of education and culture it is important for them to establish independent educational and cultural policies in conformity with their specific conditions and the interests of their people and thoroughly implement them by their own efforts.

It is also necessary to realise South-South cooperation in educational and cultural domains.

For the non-aligned and developing countries to realise South-South cooperation in educational and cultural domains by giving full play to the spirit of collective self-reliance is an effective way to abolish the consequences of the colonial rule still remaining in these fields and develop and bring into bloom national education and national culture and vigorously accelerate the building of a new society.

When these countries realise South-South cooperation in educational and cultural fields on the basis of the noble idea of chajusong (independence) and mutual cooperation, they will surely be able to develop national education and national culture on their own strength, train scientific and technical personnel and cultural workers needed for the building of a new society, and achieve the development of the country and the prosperity of the nation.

Noting that cooperation among the non-aligned and developing countries must be one for sincere help based on the principle of chajusong, equality, non-interference in internal affairs and mutual benefit and based on the principle of strengthening the unity of the Non-Aligned Movement and ensuring the general interests of the developing countries, the editorial stresses:

Only then is it possible for the non-aligned and developing countries to effectively utilize each other's experience and fund, further expand and develop interchange and cooperation and promote educational and cultural construction.

The newspaper says:

President Kim Il-song said that the most urgent problem that must be solved by the newly-emerging countries in their educational work is to train native cadres well to meet their own demands for cadres in building a new society.

He said that the newly-emerging countries should reject the tendency to return to the past and national nihilism and oppose imperialists' cultural infiltration in the field of culture and the national culture of a country should be developed in its own way to conform with its specific conditions and the sentiments of its people.

He further said that the basic guarantee for strengthening and developing the Non-Aligned Movement lies in the member nations' firm adherence to chajusong (independence) and they should strengthen the political unity and actively develop economic and cultural cooperation.

Speech Praised

SK290437 Pyongyang KCNA in English 0422 GMT 29 Sep 83

[Text] Pyongyang, September 29 (KCNA)--"Let Non-Aligned and Developing Countries Build National Culture Under the Banner of Independence and Sovereignty," a speech made by the great leader Comrade Kim Il-song on September 26 at a banquet he arranged in honour of the attendants of the first conference of ministers of education and culture of non-aligned and

other developing countries, is evoking widespread repercussions among the attendants of the conference.

Boaventura da Silva Cardoso, secretary of state for culture of Angola, said:

The speech of the great leader Comrade Kim Il-song is a historic work indicating the way for the peoples of non-aligned and other developing countries to build a genuine education and culture.

He taught that as each country has different conditions and circumstances of cultural development and the people have their own peculiar national characteristics, the non-aligned and developing countries should thoroughly establish culture in the field of educational and cultural construction.

This is a programmatic guideline powerfully encouraging the people, educationists and intellectuals of the non-aligned and developing countries to build a progressive and revolutionary education and culture.

I will fully discharge my obligation, guided by this speech in the future.

Ranji Chandisingh, minister of education, social development and culture of Guyana, said:

In the speech the great leader stressed that all the non-aligned and developing countries should step up the building of national culture under the banner of independence and sovereignty. This is a programmatic compass indicating the road of struggle for the progressive educationists and men of culture in discharging the mission and role they assumed for the era and mankind.

When all the non-aligned and developing countries, guided by the speech of the great leader, learn from the successes and experiences of the Korean people, they will be able to consolidate the national sovereignty and, furthermore, accelerate the cause of making the whole world independent.

Laurent Biffot, delegate of the Ministry of Culture and Arts and head of the Gabonese delegation, had this to say:

The speech of the great President Kim Il-song is an important work expounding all problems to be adhered to by the non-aligned and other developing countries in the fields of education and culture.

In his speech I clearly saw that he is not only wisely leading the Korean people to the building of a new society but also guiding all other non-aligned and developing countries.

This conference should adopt this speech as a most important document and the developing countries develop education and culture firmly grasping it, I think.

NODONG SINMUN ON RESIGNATION OF ISRAEL'S BEGIN

SK251033 Pyongyang KCNA in English 0928 GMT 25 Sep 83

[Text] Pyongyang, September 25 (KCNA)--NODONG SINMUN today, commenting on the resignation of Begin, says Begin was ousted from power, as a matter of fact, being held responsible for the bankrupt internal and external policies of his government.

The resignation of Begin is an inevitable outcome of his reactionary and anti-popular policy since he took office as prime minister, the commentary says, and continues:

The direct factor of his resignation lies in the bankruptcy of Israel's aggressive design on Lebanon.

The large destruction and slaughter in Lebanon as well as Israel's war of aggression in Lebanon fully exposed to the world people the heinous nature of Begin as a ferocious aggressor, violator of human rights and hangman of peace and sovereignty, and further isolated the Zionists at home and abroad.

The grave consequences of the Begin clique's policies of aggression and aggrandizement, the anti-popular economic policy are another big cause for his resignation.

In the last Lebanese war period alone thousands of Israelis were killed or wounded and thousands of millions of dollars wrested from people were spent.

Due to the Begin government's frantic arms buildup and manoeuvres for economic militarization industries have almost turned into munitions industries, and more than a half of the state budget, one-third of the national income or above was consumed for military purposes.

The economy is now faced with the worst crisis in history on the whole and people's living deteriorated in Israel owing to the constant production stagnation, increase of the living cost, extreme inflation and growing foreign loans.

This gave rise to disillusion, distrust and discontent among an overwhelming majority of Israelis towards Begin and his policies and made an increasing number of them go abroad.

Antagonism and contradiction grew serious and voices of denunciation and pressure raised against Begin also within the government, parliament and the military junta with regard to his policies.

Such extreme social unrest, contradictions within the ruling circles and acute economic crisis compelled Begin to resign from the post of prime minister.

Foreign Minister Shamir, a Zionist fanatic and pro-U.S. element, who was nominated as prime minister after Begin, too, will obviously follow the line of his predecessor.

DAILY FLAYS 'S. AFRICAN CLIQUE'S' ACTS AGAINST LESOTHO

SK021548 Pyongyang KCNA in English 1529 GMT 2 Sep 83

[Text] Pyongyang, 2 Sep (KCNA)--NODONG SINMUN today runs an article headlined "Foolish Racket to Interfere With Just Cause of Lesotho People" in connection with the criminal acts of the South African racist clique against the Lesotho people which are getting more blatant.

Noting that the Botha clique leave no stone unturned in their bid to call a halt to the revolutionary changes in Lesotho and emasculate the anti-imperialist, independent stand of her government, the article says: The South African racists engineered by the U.S. imperialists are, above all, trying to overthrow the independent government of Lesotho.

A concrete example of this is the fact that the Botha clique some time ago raided the villa of the Lesotho prime minister to kill him and attempted to keep a truck loaded with explosives in waiting by his office.

They even threaten Lesotho with an armed attack under the preposterous pretext that her establishment of friendly and cooperative relations with socialist countries "is a factor of instability in Southern Africa."

The South African racists are also causing economic difficulties in Lesotho by their "economic blockade" policy. The foreign minister of South Africa openly threatened that the "economic and military sanctions" would continue, if Lesotho refused to renounce her independent policy.

All these facts prove that the South African racists are the very one responsible for the strained Lesotho situation and a heinous enemy of the African people.

If the South African racists persist in their criminal acts against the Lesotho people, defying the powerful denunciation by public opinion within and without, this will never bring them anything good, warns the article.

REAGAN'S ISRAELI REMARKS CRITICIZED--Pyongyang, 2 Sep (KCNA)--U.S. President Reagan in his recent radio address made a gesture of "criticizing" Israel, saying that the building of new Israeli settlements in the occupied territories is an obstacle to peace. This is the topic of a short commentary of NODONG SINMUN captioned "Foxy Craftiness," which reads in part: Reagan, who had turned blind eyes to the building of new settlements by the Israeli Zionists, swung round sharply and went through the motion of "criticizing" it. He sounds like a veteran Hollywood clown he is. But this was a clumsy acting. However hard he may try to disguise himself as a sheep, he cannot conceal his truculent color as a sworn defender of the Israeli robbers and their conspirator. People see foxy craftiness in Reagan's deeds and words. [Text] [SK021034 Pyongyang KCNA in English 1029 GMT 2 Sep 83]
